2026 Monthly operational status verification routine

Laboratorio de Genómica Viral y Humana BSL-3, Facultad de Medicina UASLP

Last updated November 22, 2024 v5

✓ Ok ▲ Partially operational ■ Non-operational

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Systems operational status												
LGVH generator	<input type="checkbox"/>											
Air Handling Units	<input type="checkbox"/>											
HEPA filters	<input type="checkbox"/>											
BSL-3 air pressure control system	<input type="checkbox"/>											
Hidropneumatic system	<input type="checkbox"/>											
Water conditioning system	<input type="checkbox"/>											
External water filters	<input type="checkbox"/>											
Control room UPS	<input type="checkbox"/>											
Control room PC	<input type="checkbox"/>											
Control room server	<input type="checkbox"/>											
CCTV data system	<input type="checkbox"/>											
IVMs access control system	<input type="checkbox"/>											
Critical instrument & equipment operational status												
AED defibrillator	<input type="checkbox"/>											
PriMedic defibrillator	<input type="checkbox"/>											
BSL-3 autoclave	<input type="checkbox"/>											
Cell biology autoclave	<input type="checkbox"/>											
Bioquell hydrogen peroxide generator	<input type="checkbox"/>											
Warehouse refrigerator	<input type="checkbox"/>											
RT-PCR refrigerator	<input type="checkbox"/>											
Cell biology refrigerator	<input type="checkbox"/>											
Molecular biology refrigerator	<input type="checkbox"/>											
BSL-3 refrigerator	<input type="checkbox"/>											
Kitchenette refrigerator	<input type="checkbox"/>											
Cell biology -30°C freezer	<input type="checkbox"/>											
Molecular biology -20°C freezer	<input type="checkbox"/>											
Molecular biology main -80°C ultra-low freezer	<input type="checkbox"/>											
Molecular biology backup -80°C ultra-low freezer	<input type="checkbox"/>											
BSL-3 main -80°C ultra-low freezer	<input type="checkbox"/>											
BSL-3 backup -80°C ultra-low freezer	<input type="checkbox"/>											
Cell biology biological safety cabinet	<input type="checkbox"/>											
Molecular biology biological safety cabinet	<input type="checkbox"/>											
BSL-3 4 foot biological safety cabinet	<input type="checkbox"/>											
BSL-3 6 foot biological safety cabinet	<input type="checkbox"/>											
BSL-3 CO ₂ tissue culture incubator	<input type="checkbox"/>											
BSL-3 epifluorescence microscope	<input type="checkbox"/>											
BSL-3 inverted phase-contrast microscope	<input type="checkbox"/>											
MiniAmp Plus thermal cyclers	<input type="checkbox"/>											
Axygen thermal cyclers	<input type="checkbox"/>											
Applied Biosystems 7500 thermal cycler	<input type="checkbox"/>											
Genesig Q16 thermal cycler	<input type="checkbox"/>											
Nanodrop spectrophotometer	<input type="checkbox"/>											
Powered Air Purifying Respirators	<input type="checkbox"/>
